### Writing

Unfortunately, I didn't find any interesting or at least memorable books last time. But let me tell you about one manga (manga is a Japanese comix). Don't just turn over the page! There are not so many good comixes, but this one can stand on one shelf with some books. And not with the worst of them.

The manga's name is "Goodnight Punpun" or "Onasimi Punpun" and it will literally break your heart. There is not any unanswered love, "I must be strong to save everyone" or other cliché, as you may expect. It's hard, dirty story about children from the bottom of society. Children ~~no one~~ whose no one cares about. Children that have to stand against whole world just to live.

The plot of the story is not huge, but it's not need to be. It is about people, not politics or something. All characters are well-written, art is really good. The author have a skillful hand, it's obviously not his first work. The other plus is that ~~the~~ story looks natural. There is not some feeling that manga tries to make us cry or laugh. You may not like some characters, but you can't say they seem unrealistic.

If you still not sure, here is one spoiler. When Punpun (main character) was a kid, his father got into a prison. Punpun will not see him for years, but he'll get letters. Funny stories, fairytales, supporting and other nice things in them make Punpun still like his father. But Punpun will grow and letters will become too childish for him. His mother in other hand is cold with him. She is saying that she just can't love Punpun. She really isn't likeable ~~the~~ person. But she gets ~~sick~~ <sup>is</sup> sick, ~~gets to~~ <sup>is</sup> laying in hospital some time and then dies. When it happens, Punpun gets one more letter. Standart jokes and tales and his mom's sighnts in the end with apologies for all this letters that she wrote to him all these years. If you <sup>are</sup> ready to something like that all time, you can try it. But if you don't like drama or high ratings or hard stories, just forget it. This is not manga for everyone. There is not any shame in giving up not "your" books or comixes.
