Writing

Recently I have read a book of Agatha Christie named "Sparkling Cyanide". I found it pretty interesting, so I would like to tell you about it.

This book is a detective novel. The story tells us about a mystery death of a young girl. The main characters are her husband and her younger sister, they lived together. Everyone is convinced that the case was a suicide, as the girl after a sickness was looking unhappy and stressfully, but not her husband. He was just thinking about a murder until he got a letter that made him sure about it. This is where the story begins. The husband shares his idea with detective to find out a truth. Through the novel we are getting acquainted with a lot of characters, their storyline and thoughts. Every of them is individual and good written, it is a strength of the book, in my opinion. Other, and the most noticeable for me, advantage is good unexpected plot-twists. You can be waiting for one, but it happens absolutely the opposite! There is a chance to think on your own about a murderer. The story really gets into it and you cannot give it up.

In conclusion, I can say that if you like detectives with unexpected plot-twists, it is necessary to read. You will not regret it.
